

Generated-Output Explanation Card

Use this printable resource with AI Foundations for Everyone. Write on a printed copy or type into a separate working document.

Use this card when you need to understand or check an AI-generated answer.

1. Given

- ☐ What did the user provide?
- ☐ What instructions were supplied?
- ☐ Were any files, documents, or tool results included?

2. Generated

- ☐ The available text became tokens.
- ☐ The model chose a likely next token.
- ☐ The token was added and the process repeated.
- ☐ I remember that fluent wording is not proof of truth.

3. Added abilities

Which parts are proven?

- ☐ Search or retrieval.
- ☐ Calculator or code tool.
- ☐ Saved memory.
- ☐ Citations linked to found material.
- ☐ Agent steps or outside actions.
- ☐ Human approval.
- ☐ None of these are proven.

4. Support

Mark each important claim:

- ☐ Given: stated in the input.
- ☐ Supported: backed by a suitable source or tool result.
- ☐ Added: introduced by the model but not yet supported.
- ☐ False: checked and found to be wrong.

- ☐ Missing: an important point was left out.

5. Next step

- ☐ Keep supported content.
- ☐ Remove invented content.
- ☐ Correct false content.
- ☐ Add missing content only after checking it.
- ☐ Check citations outside the generated answer.
- ☐ Ask an authorised person before an important action.
